

AWARENESS: AGILE PROJECT MANAGEMENT (AGILEPM®)

DELIVERY METHODS AVAILABLE:

- Self-Paced e-Learning

EXAM TYPE:

None

PREREQUISITES:

None

LANGUAGE:

English

AWARDED BY:

AgilePM is the world's most popular Agile project management framework offering an efficient, flexible, and targeted approach to completing projects in a way that maximizes value for both businesses and end-users.

By taking this course, candidates will have a clear understanding of exactly what has made Agile management so popular in recent years.

WHO IS THIS COURSE AIMED AT?

- Any candidates interested in learning about project management and the AgilePM framework
- Prospective or experienced project managers who have previously focused on traditional methods
- Project managers interested in training for Agile teams
- Decision-makers and program managers seeking a clearer understanding of AgilePM's potential for making projects more successful

WHAT WILL YOU LEARN?

- An overview of the Dynamic System Development Method (DSDM), which underpins the AgilePM framework's method
- The principles, products, roles, responsibilities, processes, and techniques of the DSDM and how they support iterative development
- A high-level understanding of the language and structure of both AgilePM and the DSDM

WHY TAKE THIS COURSE?

- AgilePM is the world's leading Agile project management framework. It is based on the AgilePM Handbook created by the Agile Business Consortium, a global organization specializing in business agility
- This course offers a clear overview of the AgilePM framework, its certification path, and the processes for improving projects and team dynamics
- This course clearly explains the benefits of AgilePM for organizations
- Agile project management is becoming far more widely practiced, making AgilePM training valuable for prospective managers
- Good e-Learning is an award-winning online training provider with expertise across multiple topics in project and program management, IT service management, and more

IS THERE AN EXAM?

There is no exam for this course although knowledge checks and quizzes are present throughout. Our accredited AgilePM courses include FREE exam vouchers.
