All talents, certified.

Study for **COBIT 5** Certification at foundation level with an accredited online training course from Good e-Learning! Gain a good level of understanding about the IT management issues that organizations face today, and how COBIT 5 can be used to meet these issues.

WHO IS THIS COURSE AIMED AT?

This course is ideal for individuals or teams who wish to:

- Demonstrate a good understanding of COBIT 5
- Achieve a recognized qualification that demonstrates their ability to apply COBIT 5
- Become a certified COBIT professional
- Join the elite group of qualified COBIT5 professionals worldwide

WHAT WILL YOU LEARN?

This course is based on the COBIT 5 Foundation exam syllabus with a focus on learning and retaining information. COBIT 5 terms are explained in detail and are supported with examples. You will study:

- The COBIT 5 Principles
- The COBIT 5 Enablers
- An Introduction to COBIT 5 Implementation
- The Process Capability Assessment Model

The business orientation of COBIT consists of linking business goals to IT goals, providing metrics and maturity models to measure their achievement, and identifying the associated responsibilities of business and IT process owners.

Upon gaining COBIT 5 Foundation certification you will be able to demonstrate a good level of understanding about the IT management issues that organizations face today and how COBIT 5 can be used to meet these issues. It is likely that you will have used the elements of COBIT5, in practice, and will be able to recommend applications of COBIT5 for enterprise-wide projects.

ACCREDITATION

This course has been accredited by **PeopleCert** which is licensed by ISACA as an official Examination Institute.

IS THERE AN EXAM?

When you have completed the COBIT Foundation eLearning course, you should be ready to start preparing for the Foundation Level exam.

The test can be taken online at any time via PeopleCert. Candidates will require a webcam and microphone.

The exam is a closed-book exam, consisting of 50 multiple-choice questions, of which you need to get half correct to pass. There is a time limit of 40 minutes.

GDPR ACTION & IMPLEMENTATION

AWARDED BY:

The **General Data Protection Regulation (GDPR)** comes into effect on the 25th of May 2018. Its implications for organizations will be significant and far-reaching. The first step on the road towards compliance is to raise awareness of the impending changes at every level of your organization.

WHO IS THIS COURSE AIMED AT?

An awareness of the GDPR will be necessary for anyone who comes into contact with personal data in their day-to-day activities.

It will be especially relevant to marketing, sales, HR and IT departments in businesses both big and small. Indeed anyone looking to understand the basics of the GDPR will find that this course covers what they need to know, as well as identifying concrete first steps in getting ready for the regulation.

WHAT WILL YOU LEARN?

Drawn from the articles and recitals of the regulation itself, as well as the latest information from supervisory authorities (such as the Information Commissioner's Office (ICO)) and the Article 29 Working Party (WP29), this e-Learning course concentrates the latest guidance from disparate sources in one online location.

There are 13 lessons covering the essential topics of the GDPR, such as the Rights of the Data Subject, Privacy Notices and Subject Access Requests (SARs). Each lesson concludes with a brief quiz to check your understanding before you move on.

Key Features:

- Contains the latest guidance from supervisory authorities and the Article 29 Working Party
- Accessible and relevant to all levels of the professional scale
- Contains practical first steps in getting compliant with the GDPR
- Combines text, external links, quizzes, animations and presenter videos
- Mobile friendly: adapts to your phone or tablet
- Lesson 1: Introduction
- Lesson 2: Why Change?
- Lesson 3: The Basics
- Lesson 4: Personal Data
- Lesson 5: The Roles
- Lesson 6: GDPR Principles
- Lesson 7: The Data Subject's Rights
- Lesson 8: The Lawful Bases for Processing
- Lesson 9: Privacy Notices
- Lesson 10: Privacy by Design and the Data Protection Impact Assessment (DPIA)
- Lesson 11: Data Breaches and Notification
- Lesson 12: Subject Access Requests (SARs)
- Lesson 13: Your First Steps
