DevOps INSTITUTE

Earn your **DevOps Leader** (DOL) certification with this fully-accredited e-course from Good e-Learning. By the end of this course, students will have gained a number of tangible skills to help them spearhead the cultural transformations which are such a critical success factor in utilizing DevOps.

WHO IS THIS COURSE AIMED AT?

· Anybody who already has an understanding of DevOps and wants to take their knowledge further

· Anyone tasked with leading DevOps transformation projects, as well as managers interested in modern IT leadership practices

· IT managers, directors, and corporate stakeholders seeking a greater understanding of the DevOps methodology

· DevOps certified engineers and consultants seeking to expand their knowledge beyond DevOps Foundation and take the next step in their careers

· Anyone wanting to pass the official DevOps Leader (DOL) exam

WHAT WILL YOU LEARN?

· The practices, methods, and tools required to create a 'DevOps Organization'

· The value of becoming DevOps certified

· Transformational leadership techniques

· How to 'unlearn' counterproductive behaviors

· Performance metrics, along with workflow organization and value stream mapping

· How to apply and adapt DevOps, using real-world case studies as examples

· How to measure the tangible benefits of DevOps

· The differences between major IT management practices, including DevOps and Agile

WHY TAKE THIS COURSE?

· DevOps is one of the world's most popular IT management methodologies. Becoming DevOps certified can greatly improve a candidate's employability

· The course includes frequent knowledge checks, as well as an exam simulator to help students prepare for the offi

ACCREDITATION

This course has been fully accredited by the **DevOps Institute.**

IS THERE AN EXAM?

There is an open-book, multiple-choice exam with 40 questions and a duration of 60 minutes. The pass mark is 65%.

Students who do not have English as a native language will be given an additional 25 minutes.
