Introduction: The Domain of Project Management

Projects and programs each play a key role in helping businesses grow. With clear management practices, a business can make sure that projects and programs are completed on time and within budget.

Key Stakeholders in Project Management

Project Manager	Project Management Officer	Program Manager	CIO & CTO
Business Architect	Project Coordinator	Change Manager	Systems Analyst

What are the Business Benefits?

- **Return on Investment** - Following a project or program management framework will help achieve results quickly and efficiently
- **Adaptability** - Certified managers can adapt projects and programs to suit changing circumstances
- **Organization** - Projects and programs drive value creation and strategic change. A management framework clarifies how best to organize, implement, manage, and learn from projects and programs, removing any guesswork and enabling quick results
- **Clarity** - Project and program management frameworks clarify roles, responsibilities, and performance metrics, making it easier to solve any issues and track successes
