Accredited Training Course
TOGAF® Enterprise Architecture Foundation

This accredited online training course is the complete package for anyone wishing to obtain the TOGAF® Enterprise Architecture Foundation (Part 1) qualification. This course represents an upgrade to our award-winning TOGAF 9 training material, reflecting the TOGAF standard, 10th edition.

WHO IS THIS COURSE AIMED AT?

This course is aimed at anyone looking for an introduction to the TOGAF® Standard, 10th edition or the new TOGAF Enterprise Architecture certification scheme.

It'll also benefit professionals working in architectural roles who want to achieve a globally recognized qualification and enterprise architects looking to contribute to or lead a team engaged in Enterprise Architecture activities.

WHAT WILL YOU LEARN?

The TOGAF® Enterprise Architecture Foundation course covers the concepts of Enterprise Architecture and the TOGAF Standard, the key terminology of the TOGAF Standard, the Architecture Development Method (ADM) cycle and the objectives of each phase, and how to adapt and scope the ADM for use.

It also covers the techniques available to support application of the ADM, applying the ADM, including use of iteration, partitioning and application in a Digital enterprise, how Architecture Governance contributes to architecture development and architecture content — the outputs produced while executing the ADM.

The course consists of the following 8 modules:

Module 1: Concepts

Module 2: Introduction to the ADM

Module 3: Phases of the ADM

Module 4: Introduction to ADM techniques

Module 5: Introduction to applying the ADM

Module 6: Introduction to Architecture governance

Module 7: Architecture content

Module 8: Practice exams
